***Claim Rejections - 35 USC § 112***

1. Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims recite a polymer “based on” monomers bearing acid groups. It is not clear what Applicants intend by “based on”. Also, the claims recite that the polymer has cyclodextrins “and/or” derivatives bound therein, but the specification does not support both the cyclodextrin and the derivatives being present at the same time.

Claim 16 recites “preferably”. The recitation of a preferred embodiment within a claim renders the claim indefinite.

2. Claims 16-18 provide for the use of the polymers, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

3. Claims 16-18 are is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

4. References listed on PTO-1449 have been made part of the record.
